manusa   
intelligent access

# Open to the future

Established more than 50 years ago, Manusa has grown to become a leading company in the creation, design and development of intelligent accesses. All this has been possible thanks to its firm support for innovation and technology.

Innovating means being open to new ideas, to approaches and to changes in strategy. More than a technological challenge, it is a non-conforming attitude. The attitude of Manusa.

We are therefore ready to imagine new paths. To open doors and go further, in the knowledge that success lies in eagerly persevering. And aware of the fact that collaboration and creativity will always remain the keys to innovation.

- 1966 | Founded by **Josep M<sup>a</sup> Guilera i Nubiola**, Manusa begins business with the manufacturing of **manual gantry cranes**
- 1971 | Manusa takes a radical turn in its strategy by launching **automatic doors with pneumatic technology**
- 1991 | Onwards and upwards. Manusa introduces the **microprocessor in electronic door management (FLASH)**
- 1996 | Manusa revolutionises the market with the **first universal motor group (STK)**, strengthening its international presence
- 2012 | Manusa international  
**Branches opened in Portugal and Brazil**  
Expansion of the Valls factory (Tarragona)
- 2015 | Manusa takes over **Ferroflex** to promote its growth and add to its range, going global
- 2019 | New facilities in the shape of the Catalan Branch and Ferroflex  
**Factory and offices in Polinyà (Barcelona)**

## Manusa today

- Over **50 years** of experience
- Over **300 qualified people**
- Over **20,000 doors a year**
- Presence in over **90 countries**
